# DuraNautic

*Built for a Lifetime of Dependable Service*

Since the early 60's, the DuraNautic name has stood for outstanding value. Every model is hand crafted to produce a commercial quality boat, which stands up to the rigors of hard use season after season.

## Standard Features For All V Models

- Stainless steel bow eye for strength and corrosion resistance.
- 5052 marine grade aluminum alloy hull for strength and long life.
- All seams are precision welded and tested to assure watertight integrity.
- Acrylic Urethane painted outer hull for long lasting looks and durability.
- Gunwales are extruded heavy gauge aluminum for strength.
- Heavy gauge extruded longitudinal keels protect the hull and provide added stability.
- Heavy duty extruded spray rails also add stability and directs spray outside the boat.
- Stainless steel fasteners.
- Traditional DuraNautic "Thrust-Master" transom assembly to evenly disperse engine stress throughout the hull.

## Utility V's

Fun to run and quick to plane, our five models provide the durable strength and performance expected of a DuraNautic.

## Utility V Standard Features

- Foam filled seats for level flotation.
- Unique structural bulkheads built under seats provide strengthened rigidity.
- Heavy duty handles provide convenient hand holds.
- Oar lock sockets are positioned for comfortable, efficient rowing.
- Transom drain plug is easily accessible.
